

## **Kids Capers North Lakes - The Kindness Garden and Fairy Lane**

My name is Kristy. I'm the Assistant Centre Manager here at Kids Capers North Lakes.

I'm also the educational leader of the service, so I mentor staff in programming and practice. The support from Be You has been really good, they're always there to touch base with me, they call us and to say hey how you going with that module is there anything that I can help you with?

Relax is that a beautiful rock? This Kindness Garden is awesome isn't it? We're sharing the kindness throughout the whole centre not only for the staff and but the whole community as well that comes through.

We're off to Fairy Lane. It's a community initiative that one of my good friends has started off.

We hid some rocks after that we got to find some rocks. Then we would go and see everything like the pinecones hanging and the fairy messages. Now we know what it's all about.

The community can't raise the children alone, the centre can't raise the children alone and the parents can't raise the children alone. If we're not linking all of those things together then something falls down along the way.

I found one.
